A FRAMEWORK FOR TRANSPARENCY AUDIT

The RTI Act under section 4 provides a comprehensive framework for promoting openness in the functioning of the public authorities.

While Section 4(1) (a) provides a general guideline for record management, so that the information could be easily stored and retained, the sub-sections b, c and d of Section 4 relate to the organizational objects and functions. Sub-sections (b), (c) and (d) of Section 4 of the RTI Act and other related information can be grouped under six categories; namely, 1-organization and function, 2- Budget and programmes, 3- Publicity and public interface, 4- E. governance, 5- Information as prescribed and 6. Information disclosed on own initiative.

1. Organization and Function

Files/records are marked for weeding out as per rules.

19. Why these files are not weeded out?

These files contain various informations which many times may be sought/required for court cases and other purposes.

20. Who is responsible for initiating the process of weeding out record?

Record Keeper

Vision, Mission and Key objectives of Public Works Department

Public Works Department (Buildings and Roads) is a premier agency of the State Government for construction, up gradation and maintenance of roads, buildings and bridges in the State. The department also acts as the technical advisor to the State Government in all aspects of construction activity.

From its inception in 1854, **Public Works Department (Buildings and Roads)** has been endeavouring to provide technical lead to other departments of the State Government by introducing latest construction techniques and materials, so as to achieve higher standards.

Public Works department has been maintaining material database and has standardized the Specifications, Common Schedule of Rates, Confidential analysis etc. for adoption by all other departments, Boards and Corporations of the State Govt.

The **PWD (B&R)** has been entrusted by the state Government to undertake primarily the following tasks:

- Construction & Maintenance of New Roads & Bridges;
- Design, Construction & Maintenance of Govt. buildings;
- Undertaking Deposit Contribution works relating to different Departments of Govt. of Punjab as well as of other Local Bodies;
- Fixation of rent of Private premises requisitioned for housing Govt. offices;
- Designs, construction, maintenance and repairs of runway relating to the Aviation Department;
- Development of Parks and Gardens in the vicinity of important Public Buildings and landscaping of grounds;
- Reservation of Govt. Rest Houses and Circuit Houses;
- To permit construction of approaches on both sides of roads to private individuals, institutions, factories, petrol pumps etc;
- To evacuate the encroachments coming along the road sides; and
- All aspects of tendering process right from the pre-qualification stage to the opening of bids and its evaluation.

FUNCTIONS:

The object of carving out of the Punjab Public Work Department is to execute public works of paramount importance and take up developmental activities in the State pertaining to construction of roads, bridges, buildings & electrical installations in a professional manner. To cope with the ever expanding activities it has become essential and imperative to expand the organizational set up. Briefly the main functions of the Building & Roads Department are as under:-

1. Construction and Maintenance of Roads out of the State Funds.
2. Construction and Maintenance of National Highways and improvement of Roads of Strategic importance out of funds arranged by Govt. of India, Ministry of Shipping, Road Transport & Highways, New Delhi.
3. Construction and Maintenance of village link roads with allied small Bridges and Culverts out of funds arranged by Punjab Mandi Board and Market Committees.
4. Construction and improvement of Roads and Bridges out of loans arranged from HUDCO, NABARD, BOND Schemes and PIDB funds.
5. Construction and improvement of State Highways, MDRs and ODRs with the funds arranged from centrally sponsored schemes under Central Road Funds (CRF) and Inter State Connectivity & Economic Importance (ISC & EI) Scheme.
6. Construction and Maintenance of Govt. Buildings for multifarious department of Punjab Govt. out of funds administered by the respective department.

DUTIES:

Secretary to Govt. of Punjab Section - I He is Secretary of the administrative department to ensure proper, adequate and efficient administration owing allegiance to the H.E. Governor departmental set up in hierarchy. In order to perform his duties he is assisted by following set up:-

(i) Chief Engineer — He is to discharge his duties as professional Head of B&R department and to render professional advice to the Govt. in relating to all matters on which his advice is desired. He is to monitor the Budget Estimates, allotment and expenditure on works in progress and to suggest any appropriation of funds depending upon requirement intimated to him by the Superintending Engineers working under him. The Chief Engineer is at liberty to correspond with all heads of departments on all matters in regard to details of buildings or other works concerning them.

(ii) Superintending Engineer — He is responsible to the Chief Engineer for administration and general professional control of Public Works, incharge of officers of the department within his circle. He is to inspect the state of various works in his circle and to satisfy himself that system of management prevailing is efficient and economical and that there is no accumulation of stock in any of the Divisions under his control beyond its requirements. He will inspect each Division in his circle at least once in a year to examine initial account and various other registers, mode of preparation of estimates, contract agreements, contractor account and system of recording plans and paper and office work in general. Further it is incumbent on the Superintending Engineer to apprise the Chief Engineer of any serious and glaring irregularities or other matter of importance noticed during inspection or on which his orders are required. Besides, he is to keep a rapport with the Executive Engineers with regard to control over accounts and audit inspection reports. The S.E. is responsible for the Engineering character of every work which he approves and submit any report, design, estimate or other documents to the Chief Engineer, in particular to the suitability of (6) Section - I design and reasonableness of the rates and proper checking of the estimates compared to the drawings. Besides a Superintending Engineer is required to proceed to the site in his circle to report any important design or work or any serious accident or threatened danger to the works.

(iii) **Executive Engineer** — The Executive Engineer is immediately responsible for proper maintenance of all works in his charge and for the preparation of projects, designs and estimates, whether for new works or repairs. It is also a part of his duty to organise and supervise the execution of works and to see that those works are suitably and economically carried out with material of good quality. Immediately on completion of the work the Executive Engineer is required to close accounts and to prepare completion reports. The Executive Engineer is a primary Drawing and Disbursing Officer. He is placed in account with the Treasury by the Accountant General of the State. He is required to draw money from the Treasury by presenting cheques and pay bills to meet with his just requirements and not to keep in his chest any money in excess of his immediate requirements. He is required to render account of all the transactions of the month to the Accountant General. In order to enable him to discharge his responsibilities he is provided with a Divisional Accounts Officer owing his three fold duties, as compiler of the accounts, as primary auditor to exercise certain checks over sanctions and to act as financial assistant to the Executive Engineer. The Executive Engineer is required to apprise the Superintending Engineer in the event of probability of excess over the estimates and to seek for order of Superintending Engineer on important matters. The Executive Engineer is further expected to inspect each of the SubDivisions annually and to suggest measures for improvement in accounts. He is to suggest measures for protection of buildings and works and to prevent encroachments on Government lands in his charge. The Executive Engineer in addition to his other duties is also Ex-officio Professional Advisor of all departments of the administration within the limits of his charge. (7) Section – II

(iv) **Sub-Divisional Engineer** — He is responsible to the Executive Engineer for management and execution of works within his Sub- Division and is Executive Engineer's assistant, charged with getting the work executed in Accordance with sanctioned estimates, specifications and drawings. In case of original works, the SDE is to check in variably himself all the Nishans and to see that those are correctly given. He is to check the foundation of all the important Bridges and Buildings and under ground works. He is required to ensure that the measurements of the works done or recorded in the measurement books promptly and to remain in constant and close touch with day to day work of the Junior Engineers. His detailed duties are codified in Para 5.5 of the B&R Manual of Orders. (v) **Junior Engineer** — In

SECTION - II

The powers and duties of officers and employees of the PWD

The duties of the various officers & employees of PWD (B&R) Department are as under:-

Chief Engineer.

The duties of the Chief Engineer are given in the paragraphs 1.43 to 1.48 of PWD Code and are as under:-

- 1.43 The Chief Engineer is the administrative and professional head of the Branch of the Department in his charge, and is responsible for the efficient working of his branch. He is also the responsible professional adviser of Government in all matters relating to his charge or on which his advice may be desired. He is required to bring clearly, and faithfully before Government all subjects reserved for its decision or for that of the Central Government.

- 1.44 It is duty of the Chief Engineer to arrange removals, transfers and postings of Superintending Engineers and Divisional Officers and transfers of other gazetted officers from one Circle (or Division in the case of the Electricity Branch) to another.

In the Electricity Branch it is also the duty of the Chief Engineer to arrange removals, transfers and postings of other establishment within the Branch except the Divisional Accountants.

The Chief Engineer, Electricity Branch, is also authorized to make inter-divisional transfers of posts of clerks, Line Superintendents, Overseers within the Branch in emergent cases and as a temporary measure, provided that –

- (a) temporary posts created for a brief period for a special purpose are not transferred;
- (b) in the event of the abolition of a Division or a Sub-Division the effect on the strength of the other non-gazetted establishment in the Branch shall be reported to government with such observations as the Chief Engineer may consider necessary; and
- (c) when a post has been specifically refused in any particular unit a corresponding post is not created in that unit by transfer from elsewhere.

The Chief Engineer Electricity Branch, is also responsible to fix headquarters of subordinates not in Sub-Divisional charge and of the Traveling Audit parties employed to audit locally the revenue accounts of the various Sub-Divisions in the Branch.

- 1.45 The Chief Engineer will exercise a concurrent control with the Audit Officer over the duties of the officers of the department in connection with the maintenance of the accounts and will give all legitimate support to the Audit Officer in enforcing strict attention to the regulations concerning the disbursement of money, the custody of stores and the submission of accounts. He has no authority over the audit officer in regard to audit matters, but has a claim on him for assistance and advice in matters relating to accounts and finance. At the same time the Chief Engineer should arrange that the Audit Officer is kept fully cognizant of all proceedings and proposals to enable the latter to fulfill his functions.
- 1.46 The Chief Engineer will prepare annually the portion of the budget estimates relating to the works under his control and as soon as possible after the close of each year, a report of the progress made during that period on the public works under his charge, giving a brief but clear account of the operations of the department.
- 1.47 It is the duty of the Chief Engineer to see that the budget allotments of the year are fully expended in so far as is consistent with general economy and the prevention of large expenditure in the last months of the year for the sole purpose of avoiding lapses. He will ensure that any money which is not likely to be needed during the year is promptly surrendered so as to allow of its appropriation, for other purposes by the proper authority.
- 1.48 A Chief Engineer may correspond direct with the heads of departments on all matters relating to details of buildings or works appertaining to those departments. A statement of the financial and

miscellaneous powers of the Chief Engineer is given in paragraphs 5.30 and 5.31.

Superintending Engineer.

The duties of the Superintending Engineer are given in the paragraphs 1.49 to 1.57 of PWD Code and are as under:-

- 1.49 The administrative unit of the department in the Circle, in charge of a Superintending Engineer who is responsible to the Chief Engineer for the administration and general professional control of public works in charge of officers of the department within his Circle.
- 1.50 It is the duty of the Superintending Engineer to inspect the state of the various works within his Circle, and to satisfy himself that the system of management prevailing is efficient and economical that the different articles in stock are duly verified according to the rules laid down, and that there is no accumulation of stock in any division beyond its requirements. He is also responsible that no delay is allowed to occur in the submission of Completion Reports (or completion statements) where necessary. (see paragraph 2.122).
- 1.51 The Superintending Engineer is required to ascertain and report on the efficiency of the subordinate office and petty establishments, and to see that the staff employed in each Division is actually necessary and adequate for its management. He will also examine the condition of surveying and mathematical instruments at the headquarters of Divisions. He will inspect each Divisional Office in his Circle at least once a year to examine initial accounts, accounts of stock, tools and plant and stock manufacture, registers of work and other divisional books, mode of preparation of estimates, contract agreements, contractors accounts, system of recording plans and papers, and office work generally.

In the Buildings and Roads Branch, the Superintending Engineer should submit invariably a report to the Chief Engineer intimating

whether the inspection discloses any serious irregularities or other matters of importance, which the Superintending Engineer considers should be brought to the notice of the Chief Engineer, or on which orders are required.

In the Electricity Branch, inspection of the Divisional Offices is made annually by the Chief Engineer who also deals with his Inspection Reports finally.

- 1.52. Although the Audit Officer is required to make inspections of the account offices of disbursing officers, this does not relieve the Superintending Engineer from responsibility for the maintenance of the authorized system of accounts throughout his Circle. The Audit Officer and the Superintending Engineer should assist each other in rendering the management of the accounts of the department as perfect as possible. The Superintending Engineer should also examine the books of Divisional Officers and their subordinates, and see that matters relating to the primary accounts are attended to personally by the Divisional and Sub Divisional Officers and that the accounts fairly represent the progress of each work. It will also be his duty to examine the registers of works, so as to keep a vigilant watch over the rates of work and when he considers it necessary, he may require a Divisional Officer to report to him monthly or at longer intervals on a Works Slip, P.W.A. Form No. 39, the total expenditure to date under each sub-head of a work compared with the sanctioned estimate. It will thus be seen that it rests with the Superintending Engineer to investigate excesses over sub-heads with a view to deciding whether or not a revised estimate will be required for the work. When a revised estimate is required it will also devolve on the Superintending Engineer to see that it is submitted in due time to the sanctioning authority. (See paragraphs 1.70 and 2.117)
- 1.53. (1) Superintending Engineers are empowered to transfer and post all members of establishment within their Circles except Divisional

Officers and Accountants. They may arrange among themselves for transfers of non-gazetted establishment not borne on Circle cadres their respective Circle between and when the arrangements are complete, they will recommend to the Chief Engineers the proposed transfer of such establishment from their Circles, as also those of gazetted officers.

(2) They may fix the headquarters of Overseers and Subordinates not in Sub-Divisional charge.

(3) They should see that the Circle and Divisional scales of office and petty establishments are not exceeded without proper authority.

- 1.54 (1) Superintending Engineers are responsible for the engineering character of every work which they approve and, in submitting any report, design, estimate, or other document to the Chief Engineer will invariably state their own opinion and recommendations on the subject, in particular as to the suitability of the designs and the reasonableness of the rates. They should also have estimates checked and compared with the drawings.
- (2) Superintending Engineers may be required to exercise, in addition to their ordinary duties, supervision over Local Fund expenditure in communication with the Civil Officers.
- 1.55 Besides regular tours of inspection, it is the duty of Superintending Engineers to proceed to any place in their Circles to report on any important design or work, or any serious accident or threatened danger connected with the works within their charge.
- 1.56 The supervision and control of the assessment of revenue from irrigation and navigation works within his Circle will rest with the Superintending Engineer.
- 1.57 A Superintending Engineer is authorized to correspond direct with any of the local authorities, civil or military within his Circle. He will address

General Officers Commanding Divisions or Brigades through their Staff Officers and all other officers direct.

Divisional Officer / Executive Engineer.

The duties of the Divisional Officer / Executive Engineer are given in the paragraphs 1.59 to 1.77 of PWD Code and are as under:-

- 1.58 The Executive unit of the Department is the Division, in charge of a Divisional Officers who is usually an Executive Engineer, an is responsible to the Superintending Engineer for the execution and management of all works within his Division.
- 1.59 A Divisional Officer can receive positive orders only from his own departmental superiors the head of the Administration, or other Civil Officers duly authorized.
- 1.60 Divisional Officers are responsible that proper measures are taken to preserve all the buildings and works in their Divisions, and to prevent encroachment on Government lands in their charge. They should keep accurate plans of all Government lands, take care that their subordinates make themselves acquainted with the boundaries and see that they are maintained.
- 1.61 Every Divisional Officer is required to report immediately by telegram direct to the Chief Engineer and also to the Superintending Engineer any serious accident or unusual occurrence resulting in a serious injury to, or death of, any person or damage to any work or crop connected with his Division. The telegram should be confirmed by letter stating the action taken by the Divisional Officer (See also paragraphs 2.101)
- 1.62 Divisional Officers may transfer establishment other than Sub Divisional Officers, Deputy Collectors and Accountants. Within their respective Divisions without reference to higher authority. Such transfers will be reported in the ordinary course to the Superintending Engineer.

- 1.63 Divisional Officers are immediately responsible for the proper maintenance of all work in their charge and for the preparation of projects and of designs and estimates, whether for new works or repairs. It is also part of their duties to organize and supervise the execution of works and to see that they are suitably and economically carried out with materials of good quality.
- 1.64 Divisional Officers are strictly prohibited from commencing the construction of any work or expending public funds without the sanction of competent authority; also from making or permitting any material deviations from any sanctioned design in the course of execution without specific authority, or in case of emergency, when the change should be forthwith reported to the Superintending Engineer.
- 1.65 Immediately a work is finished, it is the duty of the Divisional Officer to close the accounts and to prepare the completion report if required by the rules in paragraphs 2.122.
- 1.66 Divisional Officers will take the necessary steps for obtaining cash for the works under their control, and will keep their accounts and submit them punctually to the audit office under the rules for the time being in force. In their arrangements for account keeping they will exercise a thorough and efficient control and check over their Divisional Accountants. They will also, before submitting the monthly accounts, carefully examine the books, returns and papers from which the same are compiled.
- 1.67 The Divisional Officer is responsible for the correctness, in all respects, of the original records of cash and stores, receipts and expenditure and for seeing that complete vouchers are obtained. The Divisional Accountant is responsible to the Divisional Officer for the correct compilation of the accounts of the Division from the data supplied to him.

The Divisional Officer is responsible that his accounts are regularly posted from day to day and that the Accountant carries out his duties regularly and punctually. The relative position of a Divisional Accountant to the Divisional Officer in respect of accounts is analogous to that of a Sub Divisional Officer to a Divisional Officer in respect of works, and the responsibilities of the latter for the work of the Divisional Accountant are similar to those which attach to him in respect of the execution of works in the charge of other subordinates.

1.69. Relates to PWD (Irrigation) Branch.

1.70. The Divisional Officer is held primarily responsible for affording information of the probability of excess over the estimated cost of work, and is expected not to allow any delay to occur in reporting any such probability to the Superintending Engineer. Immediately it becomes apparent that, whether from excess of certain rates or from departure from a design or any other cause, the estimated cost of a work is likely to be exceeded, the Divisional Officer is bound to report the fact forthwith to the Superintending Engineer, describing the nature and cause of the probable excess and asking for orders. This report should be made on the works Slip P.W.A. Form No. 39. The Divisional Officers must also submit the Works Slip, with such explanation as will enable the Superintending Engineer to pass orders on the case, on the occurrence, or the probability of the occurrence, of any irregularity in the rate or cost of a sub-head. All important liabilities not brought to account should also be noted on the Works Slips.

It will not be necessary for the Divisional Officer to submit the Works Slip in cases in which he can finally pass excesses over estimates under Serial No. 27 of paragraph 20.15 B.F.P..

- 1.71 The Divisional Officer is responsible that the surveying and mathematical instruments in his Division are properly cared for, and will report on their condition to the Superintending Engineer at the end of each working season. Any injury to the instruments due to neglect or carelessness should be made good at the expense of the officer or subordinates responsible for the damage.
- 1.72 It will be the duty of the Divisional Officer to furnish Treasury and Sub-Treasury Officers, after due inspection, with the certificate prescribed in Article 9 of the Resource Manual as to the security of strong rooms used or proposed to be used for the storage of coin.
- 1.73 The Divisional Officer will be required to inspect at least once a year and to report on and suggest measures for the protection of any public monument or building of architectural or historical interest, whether public or private property other than those protected by the Central Government, which appears likely to fall into decay, and he will be held responsible for any neglect or destruction which he has failed to report. In the case of private property it will be for the Provincial Government to decide what steps, if any, are to be taken to obviate further neglect or destruction.
- 1.74 The Divisional Officer, in addition to his other duties, will consider himself to be the ex-officio Professional advisor of all departments of the Administration within the limits of his charge. He will transact business of this sort with the chief military or civil authorities within his Division, but it is incumbent on him to see that no undue formalities or comparatively unessential projects are allowed to interfere with the performance of those duties which are necessary or urgent.
- 1.75 Divisional Officers may, where the services of any officer of the Military Engineer Services are not available, be called upon by General Officers Commanding Divisions or Brigades to be members

of committees appointed to select sites and determine general boundaries of cantonments.

- 1.76 At stations where there are no Ordnance or Military Works workshops, repairs to ambulance wagons and tongas will be carried out by the Public Works Department.
- 1.77 Divisional Officers will address Commanding Divisions, Brigades of Stations through their Staff Officers.

Sub Divisional Officer

The duties of the Sub Divisional Officer are given in the paragraphs 1.78 to 1.79 of PWD Code and are as under:-

- 1.78 The Division is divided into Sub Division in charge of Sub Divisional Officers who may be Executive Engineers, Assistant Executive Engineers, Assistant Engineers or where no such officers are available, Engineer Subordinates or Zilladars; they are responsible to the Divisional Officer for the management and execution of works within their Sub Divisions and are his assistants.

No Sub-Division can be constituted in the first instance without the sanction of Government.

- 1.79 In future Executive Sub Division of the kind referred to in the latter part of the first works Account Code should not be instituted except under the orders of the Superintending Engineer who should in each case record the reasons for his action in writing, forwarding a copy to the Chief Engineer, for information.

Sectional Officer

The smallest working unit in the B&R Branch is known as 'Section' in the charge of a Sectional Officer whose principal functions are as under:-

- To prepare petty requisitions and plans and estimates for special repairs and additions and alterations.

- To give Nishans for works to be done in his section.
- To carry out survey and leveling work when required to do so.
- To supervise the actual execution of building and road works and repairs in his section done through the contractors or by daily labour and to see that they are executed in accordance with the plans and specifications approved by the competent authority for the said work with sound materials. He shall maintain the Register of progress and instructions on all major works and present them to all inspecting officers on their visits for recording their orders, if any.
- To make arrangements for adequate strength of labour at economical rates within the sanctioned rates when a work is required to be done departmentally.
- To maintain accounts of all the stock and T&P in his charge, their receipts and issues and to maintain register of materials at site.
- To take measurements of works and to assist the Sub-Divisional Officer or Executive Engineer in measurements or check-measurement of works.
- To record, in time, the measurements of small works below foundations. In case of large works, to get the work measured up, in time, from the Sub-Divisional Officer, before such works get covered over.
- To prepare running bills of all works and final bills of such works as cost less than one lakh of rupees and to submit them to the S.D.O.
- To put up measurement books regularly to his Sub-Divisional Officer for order of payment at least twice a month.
- To supervise labour employed on daily wages and to submit labour reports daily to the S.D.O. and to supervise the regular gangs and to check their attendance on his visits to roads under his charge.
- To prepare, maintain and submit in time all rolls of work-charged establishment and to make payments to work-charged establishment and permanent gangs on behalf of and under the instructions of the Sub-Divisional Officer when required to do so.
- To keep a vigilant control over expenditure and report progress of work to his S.D.O. either daily or periodically as may be ordered.

- To report to the S.D.O. immediately occurrence of any serious accidents etc. in his section and to ensure that no damage takes place to the Government property in his charge.
- To check the Visitors register of all rest houses in his charge at least once a month and to receive collections of rents etc. from Chowkidars of rest-houses for depositing them in the Sub Divisional Office.
- To keep Government land property free from encroachments and to promptly bring to the notice of his Sub Divisional Officer in writing when any encroachment temporary or permanent is threatened or actually takes place.
- To check (count, weigh or measure, as the case may be) each half year, all the stores in his charge and to prepare half yearly distribution list for stock and yearly for T&P showing the closing balances and to certify distinctly that he has checked the stores, recording the result of such a check.
- To check, measure all the roadside materials at least once in six months and record his check in the measurement books.
- To submit survey report for all unserviceable stock and T&P.
- When holding an imprest, the S.O. is responsible for the exercise of proper care in the custody of cash and in case of loss the onus of proof that proper care was exercised will be on him.
- To carry out annual inspections of buildings and report the result to S.D.O. for entry in the Register of Buildings as laid down in paragraphs 9.4 of this Manual. He shall in addition, be answerable for the general condition of all buildings and roads under his charge and for bringing to notice structural weaknesses, if any.

The Sectional Officers, instead of keeping a separate Diary showing their visits to various works in their charge, should show all their journeys within or beyond five miles areas of their headquarters in their monthly T.A. Bills.

Note: *The duties of the other Ministerial Staff are codified in Chapter-5 of the PWD (B&R) Manual of Orders.*

FINANCIAL AND ADMINISTRATIVE POWERS**10.2 To sanction purchases, manufacture; etc of stores and increases and decreases in the reserve stock limit (see Rule 6.2)**

| Sr. No | Nature of Power | To whom delegated | Extent |
|---------------|---|--|---|
| 1 | 2 | 3 | 4 |
| 1 | To sanction purely temporary increases of the reserve stock limits of a Division, such increase to be absorbed within six months from the date of the increase | (i) Chief Engineers (ii) Superintending Engineers | Full Powers Up to 25 per cent increase over the sanctioned permanent limit of any Division |
